
INNERCARE[®]

A DIVISION OF HUMAN DEVELOPMENT INDUSTRIES, INC.

May 1, 1995

To whom it may concern:

Rosanne Ferreri-Feske d/b/a CONCISE EDITING provided editing and research services to Michael LaBrosse d/b/a HUMAN DEVELOPMENT INDUSTRIES from February 1994-February 1995. Rosanne was initially hired to research and create a database of Minnesota foundations that would be interested in funding a children's medical audio program called "Imagine Me," which I had developed.

In early February 1994, Rosanne was hired to design and produce a new proposal for funding; Her new proposal combined the best materials from our old proposal with more current information that is in our manuals and workbooks, and included testimonials from children who had used our program. Under the title, *Community Outreach Coordinator*, Rosanne managed all communications with foundations, sending proposals and responding to all phone and mail correspondence.

I found Rosanne to be a very diligent and conscientious worker, and hired her again in February 1995 to complete phase two of this project, researching and developing a database of U.S. foundations. Both the Minnesota and U. S. projects were completed on schedule, within budget, and to my specifications.

Sincerely,

Michael LaBrosse, President
Human Development Industries
